Self-Improvement

Skills

- FRONT-END DEVELOPMENT | React.js, HTML, CSS, SCSS
- BACK-END DEVELOPMENT | Node.js, Express.js
- DATABASE | MySQL, MongoDB
- SOFT SKILL | Teamwork, Problem-solving, Time management

Education

THE OPEN UNIVERSITY OF SRL LANKA (OUSL)

Bachelor of Software Engineering (Hons) Undergraduate
2021-Present

Vijitha National School (A/L)

Engineering Technology with three "S" passes
(2018-2020)

Experience

Metro Express

A logistics company where I gained experience in logistics and Developed a logistics web platform for Metro Express using React.js, improving customer engagement by 30%.

Coursework & Certificates

SQL (Sololearn)

Python for Beginner (Sololearn)

Python Data Structure (Sololearn)

Java (Sololearn)

Projects

NTN ART HUB (Next JS)

- Developed a full-stack web application for artists to showcase their products.
- Artists can create accounts and display product details.
- Buyers can contact sellers through the platform.
- Built using **Next.js** and **MySQL** to ensure a seamless user experience.

Portfolio (React JS)

- Created a web application to showcase my projects and skills.
- Developed using **React.js**.
- Enables clients to view my work easily.

NTN FOOD Network (MERN Stack + MySQL)

- Developed a web application containing information on various restaurant foods.
- Built using the **MERN Stack** and **MySQL**.
- Strengthened my knowledge of full-stack development.

NTN Hotel Supply Network (MERN Stack + MySQL)

- Created a web application to manage hotel equipment information.
- Developed using the **MERN Stack** and **MySQL**.
- Improved my full-stack development skills.

Metro Express (React JS)

- Developed a logistics web application
- Built it using **React JS**.
- Helped me gain a deeper understanding of React.js.

SSG MART Shopping Web Application (MERN Stack + MySQL)

- Group project completed in my second year of university.
- An online platform connecting buyers and sellers without brokers.
- Developed using the **MERN Stack** with **MySQL** instead of MongoDB.
- Successfully completed with an '**A+**' grade.
